

The  
Neurosciences  
Foundation

## **We are pleased to announce a call for applications for a Neurosciences Foundation Studentship.**

The criteria are:

1. Funding will be provided to **co-fund** the stipend and fees for PhD or MD studentships with a maximum duration of 3 years. Applicants have to identify the other half of the co-funding.
2. The work has to be undertaken in association with clinical researchers in the West of Scotland.
3. There is a financial ceiling of £35K over 3 years.
4. The Foundation will support up to 50% of the stipend (based on MRC guidelines for PhD scientists) and fees for an EU student in a Scottish University.
5. NSF funding will not be approved until the applicant can demonstrate that financial support for the complete studentship is in place.
6. Additional project expenses can be claimed up to the maximum set out in paragraph 2, but these have to be justified.
7. Clinically qualified students can be supported, but the constraints set out in paragraph 3 will apply.
8. The students will enroll with the University pertinent to the Principal Applicant.
9. A studentship application form should can be downloaded from [www.neurosciencesfoundation.org.uk](http://www.neurosciencesfoundation.org.uk)

**The deadline for application in 18<sup>th</sup> December 2015.**
